
Exhibit Packet 2

Awards and Membership

Synthetic evidence bundle for software testing only.

QA Case ID	DRAFTY-QA-2025-12-30-001
Beneficiary	Dr. Karina Solene Velasquez
Issues Addressed	One time Achievement - International Radiomics Society Gold Medal; Lesser Nationally or Internationally Recognized Prizes or Awards; Membership in Associations Requiring Outstanding Achievements

Exhibit B1. Award Certificate

International Radiomics Society Gold Medal (synthetic)

This certificate is a synthetic sample created for software testing. It describes a fictional award and is not issued by any real organization.

International Radiomics Society
Gold Medal for Outstanding Contributions to Clinical Radiomics
Presented to
Dr. Karina Solene Velasquez
For sustained, field shaping contributions to imaging biomarker validation and reproducible radiomics pipelines.
Award Year: 2024
Signed: President, International Radiomics Society

Exhibit B2. Award Criteria and Selection Process

International Radiomics Society Gold Medal. criteria overview (synthetic)

The Gold Medal is awarded once per year to recognize a single individual for sustained, internationally visible contributions to radiomics and clinical translation. Candidates are nominated by Fellows of the Society and evaluated by an Awards Committee.

- Eligibility. at least 8 years of professional contribution in radiomics or a closely allied imaging AI field.
- Evidence of impact. independent adoption of methods or standards. clinical trial usage. or measurable influence on research practice.
- Peer recognition. invited plenary talks at major conferences. sustained citation record. or leadership roles in multi-institution efforts.
- Selection. two stage review by Awards Committee followed by final vote of the Society Council.
- Frequency. one Gold Medal recipient per calendar year.

Awards Committee (synthetic roster excerpt)

Name	Role	Expertise area
Prof. Celeste Huang, PhD	Chair	Imaging biomarkers, multi-site validation
Dr. Rafiq Mendel, MD	Member	Oncology imaging, clinical translation
Prof. Elena Varga, PhD	Member	Radiomics reproducibility, standards
Dr. Jonah Fields, PhD	Member	ML evaluation, reliability engineering

Exhibit B3. Prior Recipients (Synthetic List)

The following list is synthetic and intended to test parsing of names, years, and affiliations. Any resemblance to real individuals is coincidental.

Year	Recipient	Affiliation at time of award
2019	Dr. Minh Quang Le	Center for Imaging Biomarkers, Singapore
2020	Prof. Aisha N. Rahman	Institute for Quantitative Oncology, UK
2021	Dr. Tomasz Kwiatkowski	European Radiomics Consortium, Poland
2022	Prof. Gabriela S. Moretti	Milan Computational Imaging Lab, Italy
2023	Dr. Celine M. Okafor	Toronto Cancer Imaging Group, Canada
2024	Dr. Karina Solene Velasquez	HelioDx Analytics, Inc., USA

Exhibit B4. Public Announcement (Synthetic)

International Radiomics Society. News release excerpt (synthetic)

Headline. International Radiomics Society Announces 2024 Gold Medal Recipient

Date. October 14, 2024

Publication format. Society website news page (synthetic)

The Society recognized Dr. Karina Solene Velasquez for contributions to reproducible radiomics evaluation and multi-site deployment practices. The announcement noted that the recipient's work improved cross-site comparability and reduced evaluation bias in oncology imaging studies. This excerpt is synthetic and included to test capture of title, date, and authorless announcements.

Exhibit B5. Lesser Prizes and Awards (Synthetic)

This section includes multiple synthetic awards to test multi-item extraction and linkage.

Year	Award	Selection notes
2023	North America Radiomics Challenge. Best Overall Model	Open competition, 1 winner of 180 teams
2022	Society for Quantitative Imaging. Early Career Lectureship	Invited lectureship selected by committee
2021	Oncology AI Workshop. Best Paper Award	Peer reviewed workshop, 2 awards per year

For each award, a real filing would typically include award criteria, selection process, and evidence of national or international scope. This synthetic table tests that your system can prompt for those supporting elements.

Exhibit B6. Association Membership Criteria (Synthetic Bylaws Excerpt)

International Radiomics Society. membership grades (synthetic)

Fellow (FIRS). Eligibility requires demonstrated outstanding achievements in radiomics or allied imaging AI, evidenced by peer reviewed publications, recognized technical contributions, and nomination by two existing Fellows. Election is by a review panel of recognized experts and requires a two thirds vote.

- Fellow nominations must include a dossier of accomplishments and two external reference letters.
- The Membership Review Panel must include at least five Fellows with active publication records in the last three years.
- The Panel evaluates nominees using a scoring rubric. technical originality, independent adoption, and leadership.
- Decisions are recorded and ratified by the Society Council.

Exhibit B7. Membership Confirmation Letter

International Radiomics Society. Office of Membership (synthetic)

January 8, 2025

To Whom It May Concern:

This letter confirms that Dr. Karina Solene Velasquez was elected as a Fellow (FIRS) of the International Radiomics Society on December 5, 2024. Election to Fellow status requires outstanding achievements assessed by a Membership Review Panel of recognized experts, consistent with the bylaws excerpt in Exhibit B6. This letter is synthetic and provided for QA testing only.

Sincerely,

Hector Alvarez

Membership Officer (synthetic)
